Welcome

Hi, I'm vb6rocod. I'm from Romania and my native language is not English..

Few time ago I buy a DVD player, Philips 5160. I don't like very much how look file browser or subtitles. I start to search for alternative firmware's, but what I find don't like very much. Step by step I learn how to make a better firmware. For this I want to thanks to all who contributed and share information with me.

What can you find here?

A large collection of my firmware, all for Philips players. Code for some patches, part discover by me, part developed by others. Some useful programs and other resource. Links to other resources and more.

For more visit [my blog site](#). Hope you find this site useful and best of luck!

NEW: I upload all my firmware's to mediafire (as a mirror). For each player I make a folder.

Apr 8, 2009 Update DVP5990_12

Special edition for Romanian users (and CP 1250)

- New logo
- New file browser
- New icons
- Display one mp3 TAG, near file index
- With volume on Repeat keys

Mar 18, 2009 Update DVP3160K_55

Change from previous version (4.3.2.1)

- 8 lines in file browser
- 48 characters on USB
- 1 mp3 TAG, near file index
- jpeg preview in background
- Slide show time is set to 3 seconds and transition to very fast.

Mar 15, 2009 New version for DVP5980S_12

Because version with RISC from 5990 is controversat I make a new version with original RISC from 5980S

- Basic is like v5 (RISC 5990), without patch UnicodToCP and Remove UOP.

Mar 12, 2009 Update DVP3252(I)_75

Change from previous version

- Add a new section in firmware for DVP3252(I)_75
- Full UnicodeToCP (USB and ISO+Joliet)
- Partial remove UOP (User operation prohibition)
- Version with and without patch "Load ORG Then All" , that's if you want to use "ssa", "smi" or vobsub (sub/idx) subtitle.
- For DVP3252I_75 add version with color for subtitles (but with bug "When exit setup while watch a movie, color for subtitles is changed".
- Display 1 TAG MP3 (near file index)

Mar 08, 2009 Update DVP3254K(I)

Change from previous version

- Better WordWrap, not perfect
- Full UnicodeToCP (USB and ISO+Joliet)
- Partial remove UOP (User operation prohibition)
- Version with and without patch "Load ORG Then All" , that's if you want to use "ssa", "smi" or vobsub (sub/idx) subtitle.

Mar 08, 2009 Update DVP3260

Change from previous version

- Full UnicodeToCP (USB and ISO+Joliet)
- Partial remove UOP (User operation prohibition)
- Version with and without patch "Load ORG Then All" , that's if you want to use "ssa", "smi" or vobsub (sub/idx) subtitle.
- For 3260I add version with color for subtitles (but with bug "When exit setup while watch a movie, color for subtitles is changed").

Mar 06, 2009

- Add a version with UnicodeToCp for DVP5980_12.
- Add a new tool MTKVb6Tool for firmware with extrabytes or "Info end - non zero". Get from download section.

Mar 02, 2009 Forum is back..

- I move forum to a new address.
- Hope this time to be more lucky...

Feb 21, 2009 Update DVP5980S_12

Change from previous version v4_5

- RISC from 5990_12
- 8 lines in file browser
- max. 48 char from USB
- Jpeg preview in background
- full UnicodToCp (ISO+Joliet and USB).
- Slideshow transition is set to very fast.
- Partial remove UOP (User operation prohibition)
- DivX Logo

Feb 18, 2009 Update DVP3260(I)_12

Change from previous version

- remove old wordwrap and add my patch wordwrap + reformat. Better, but not perfect....
- fix center position for subtitles in "I" version.

Feb 17, 2009 Update DVP3260(I)_12

Change from previous version

- max. 48 char from USB. Thanks to **Tentakulokans**
- 8 lines in file browser
- fix "color bug" for "I" version.

Feb 16, 2009 Update DVP3254K(I)*Change from previous version*

- max. 48 char from USB. Thanks to **Tentakulokans**
- 8 lines in file browser
- fix "color bug" for "I" version.

Feb 14, 2009 Update DVP5996K_51*Change from version v3_1*

- max. 48 char from USB. Thanks to **Tentakulokans**
- Slideshow transition is set to fasted possible.
- Move jpeg preview in a lower position
- fix "remaining dots on directory line".

Feb 14, 2009 Update DVP5990K_55(75)*Change from version v3_1*

- max. 48 char from USB. Thanks to **Tentakulokans**
- Slideshow transition is set to fasted possible.
- Move jpeg preview in a lower position
- fix "remaining dots on directory line".

Feb 14, 2009 Update DVP5990_37*Change from version v3_1*

- max. 48 char from USB. Thanks to **Tentakulokans**
- Slideshow transition is set to fasted possible.
- Move jpeg preview in a lower position
- fix "remaining dots on directory line".

Feb 12, 2009 Update DVP5990_12*Change from version v7_1*

- max. 48 char from USB. Thanks to **Tentakulokans**
- Slideshow transition is set to fasted possible.
- Move jpeg preview in a lower position
- fix "remaining dots on directory line".

Feb 12, 2009 Update DVP5160_12*Change from version v9*

- max. 48 char from USB. Thanks to **Tentakulokans**
- Selectionbar follows playing file (mp3).
- Slideshow transition is set to fasted possible, and slideshow time is set to 3 sec.
- Move jpeg preview in a lower position
- fix "remaining dots on directory line".
